

Bank7 Corp. Announces Stock Repurchase Plan, Declares a \$0.10 Quarterly Dividend and Completes Previously Announced Stock Transfer to Executives

OKLAHOMA CITY, Sept. 5, 2019 /[PRNewswire](#)/ -- Bank7 Corp. (NASDAQ: BSVN) ("the Company"), the parent company of Oklahoma City-based Bank7, announced today that its board of directors (the "Board") has modified its capital management plan, as the Company and its shareholders continue to benefit from robust earnings, great asset quality, all-time high capital ratios, and excellent operating efficiencies. The Company expects to continue to increase capital ratios due to its strong earnings, allowing it to continue to pursue growth, including through acquisitions. The following actions are intended to improve earnings per share, return excess capital to shareholders and further align executive management and shareholders' interest:

- The Board authorized the Company to repurchase up to 500,000 shares, or approximately 5% of current outstanding shares, of the Company's common stock.
- The Board declared a \$0.10 per share quarterly dividend, payable on October 16, 2019 to shareholders of record on October 1, 2019.
- As disclosed in the Company's Registration Statement on Form S-1 for its initial public offering and in its Annual Report on Form 10-K dated March 31, 2019, the Haines Trusts transferred shares equal to approximately 6.5% of outstanding shares to the executive management team.

Stock Repurchase Program

The Board has authorized a stock repurchase program to purchase up to 500,000 shares, or approximately 5%, of the Company's outstanding common stock, par value \$0.01 per share. The stock repurchase program has a term of two (2) years.

In announcing the stock repurchase program, Board Chairman William B. Haines, commented: "Bank7 has delivered exceptional return on equity, consistently strong asset quality, and continued robust earnings, which has resulted in record capital levels. Our Board believes the adoption of a stock repurchase program is an important capital management tool that demonstrates our continuing commitment to increase shareholder value."

The shares may be repurchased from time to time in open market transactions at prevailing market prices, in privately negotiated transactions, or by other means in accordance with federal securities laws. The actual timing, number and value of shares repurchased under the program will be determined by management at its discretion and will depend on a number of factors, including the market price of the Company's stock, general market and economic conditions, and applicable legal requirements. Repurchased shares will become treasury shares and may be utilized for general corporate purposes, including reissuance pursuant to the Company's 2018 Equity Incentive Plan.

Quarterly Dividend

The Board declared a \$0.10 per share quarterly cash dividend payable October 16, 2019, to shareholders of record as of October 1, 2019. This is the first dividend paid by the Company since its initial public offering and represents a 2.25% implied annualized yield utilizing the September 4, 2019 closing price of \$17.76 and a 20% payout ratio based on the second quarter earnings per share of \$0.50.

Stock Transfer

On September 5, 2019, our controlling shareholders, the Haines Family Trusts, completed the previously announced transfer of approximately 6.5% of the Company's outstanding common stock to certain of our executive officers. This was accomplished in two steps: (1) the Haines Family Trusts transferred 656,925 shares of stock to the Company as a capital contribution; and (2) the Company issued an aggregate of 507,500 shares to the top three executive officers under the 2018 Equity Incentive Plan with 149,425 shares being withheld by the Company for income taxes. Board Chairman William B. Haines stated, "As Bank7's largest shareholder, the transfer from the Haines Family Trusts to the executive management team demonstrates our family's commitment to the Company and its other shareholders. This well-deserved transfer further aligns the management team with all shareholders."

Because the shares were transferred from the Haines Family Trusts' personal holdings, the transfer itself did not impact total shareholders' equity or the number of shares outstanding. The share issuances will be accounted for as stock-based compensation and will result in non-cash compensation expense of approximately \$11.6 million in the third quarter of 2019. This non-cash compensation expense attributable to the stock transfer will result in a reduction to earnings both for the third quarter and year to date; however, excluding this one-time non-cash expense, we expect our third quarter earnings to be comparable to previous quarters.

The Board elected to retire shares granted to the executives to satisfy income tax withholding obligations into its treasury stock as a complementary action to the stock repurchase program. This allowed the Company to effectively repurchase a large block of shares at market value without associated fees payable as part of the stock repurchase program. The impact of the extinguishment of shares withheld for taxes will be to reduce shares outstanding by 149,425 and reduce total shareholders equity by approximately \$2.6 million.
